

General Electric Matching Gifts

Additional Information about Eligibility and Procedure:

Eligible participants may register gifts online at www.gefoundation.com/matchinggifts. Click on the "GE Participants" button to log in using your GE SSO I.D. and password. You will have the ability to print a confirmation of your gift registration. Gifts made within the calendar year must be registered by the donor by the following April 15. Note that gifts may also be registered by phone with the Matching Gifts Customer Support Center (1-800-305-0669). Questions may be directed to Customer Support at this same number or by email to gesupport@cybergrants.com

GE Participant eligibility is outlined in the Program guidelines (URL above).

Please note:

The Matching Gifts system receives a direct feed of eligible GE employees from the GE Oracle HR system. To the extent you recently joined the company your record may not yet appear in the Matching Gifts system. If you are not a new employee but feel you fit the criteria, please contact your HR Manager for further information as to why you may not be included in the population of eligible GE employees. If you are a recent retiree, please note that there is usually a time delay while your record is moved from Oracle and your eligibility may be temporarily affected (the eligible retiree population is provided by US Employee Services).

Recipient organizations must confirm receipt of gifts online at www.gefoundation.com/matchinggifts in order to be considered eligible (click on Non-Profit Participants button). Payment acknowledgements are not required but may be sent to:
