3M

Dear 3M Donor,

Thank you for your participation in the College and University Match. The generosity of 3M donors like you has generated over \$25 million in matching gifts to colleges and universities across the country.

Each year the 3M Foundation Board reviews all employee/alumni matching programs for alignment with the giving strategy. As a result of this review there will be a change to the College and University Match Program; all other matching programs remain the same.

Effective January 1, 2014, the annual maximum gift will be reduced from \$10,000 to \$5,000. No change in the matching formula: employee gifts are matched 1:1 and retiree gifts .50:1 until the fifth anniversary of retirement and then no longer eligible.

Information about this change was posted on at www.3Mgiving.com earlier this year. However, as an individual who may be impacted by this change we wanted to write you personally so that you can plan accordingly.

Please remember that according to the program rules, the 3M Foundation match should not be included if you are making a multi-year gift to your university since the guidelines can vary from year to year.

Thank you for your generous gifts and for your support.
