Dear Linda:

Valero knows that being a good operator also means being a good neighbor. **Our company is proud to demonstrate its commitment to all of its communities** through a variety of philanthropic efforts, volunteer activities and educational support programs. Collectively, Valero, its Foundation and Valero employees helped generate over $40 million in annual giving this year throughout the communities where we have major business operations. You'll be pleased to know that a great portion of those funds was designated for various educational programs and services.

While we will continue to support a variety of educational initiatives at all levels to ensure student success and help increase graduation rates, Valero's matching gift program has been discontinued effective October 1, 2016. Therefore, we will not be processing a matching gift on behalf of the November 2016 gift made by [redacted] Byerley to Purdue University Foundation.

Thank you for updating your records to reflect this change.

Best Regards,

Sylvia Rodriguez
